Web-Seminar "Industrial lubricants" at 05. and 06. February 2024 in English

In a nutshell: Due to the positive feedback we will offer the web seminar "Industrial lubricants" again in English. In this compact Web-Seminar, the most important aspects of industrial lubricants will be covered over two half days. This seminar is designed for both newcomers and experts. The speaker will be Prof. Dr. Joachim Schulz, who is valued in the industry.

Dear Ladies and Gentlemen,

Industrial Lubricants as a whole play a relevant role in the lubricant industry. Therefore, we will offer a Web-Seminar on 05 and 06 February 2024 (half-day each).

In this compact web seminar, the most important aspects of industrial lubricants are covered. After an introduction including an overview of lubricant technology, base oils and additives the most important types of industrial lubricants and their requirements are presented.

At the end of the Web-Seminar the attendees will get practical tips and valuable advices around the applications, inspections and analytics.

The Seminar is divided into two half days in order to maintain the participants' concentration despite the large amount of information. Participation can take place both from the workplace and from the home office. This means that training can be delivered effectively and cost-efficiently without the need for travel.

In the seminar, participants will receive a compact overview of the most important aspects of industrial lubricants and valuable information for their everyday work. In addition, all participants are invited to bring in their practical questions.

The speaker at the seminar is Prof. Dr Joachim Schulz, who has many years of experience in the lubricant industry.

Take advantage of this offer for the qualification or further training of your employees!

Schedule and contents of the webinar "Industrial Lubricants":

Monday, 05 February 2024 (afternoon - CET)

12.30 - 12.45	Welcome, introduction, organisation
12.45 - 14.00	Overview of lubricants, tribological basics, base oils and additives
14.00 - 14.15	Break
14.15 - 15.30	Industrial gear, turbine and compressor oils
15.30 - 15.45	Break
15.45 - 17.00	Handling industrial lubricants, analysing and testing

Tuesday 06 February 2024 (morning - CET)

9.00 - 10.15	Greases and special lubricants
10.15 - 10.30	Break
10.30 - 11.45	Hydraulic fluids

12.00 - 13.00	Bio-lubricants and eco-labels, food-grade lubricants

Participants are welcome to ask their questions during the presentations (via chat or via live connection). The speaker will be happy to answer them. Additionally, there will be enough time at the end of each seminar day to discuss open tasks.

The seminar presentations will be sent to the registered participants by e-mail (digital) a few days before the seminar begins.

The seminar will only be from a minimum number of participants. The number of participants is also limited in order to be able to respond to specific questions and to have useful discussions.

We therefore recommend early registration if you are interested!

Participation fee including online access and conference documents:

UNITI/VSI members	€ 425,-- + 19% VAT
Non-members	€ 525,-- + 19% VAT

Registration (see registration form attached, please send directly to UNITI):

Registration deadline: **January 22, 2024**

Cancellation deadline: **January 22, 2024**

We will send the seminar program and the dial-in data for the Web-Seminar to the attendees a few days before the seminar starts.

Participants will receive a certificate of attendance after the seminar.

If you have any further questions or comments, please feel free to get in contact with Mrs. Madeleine Ritscher (by phone: +49 30 755 414-500 or by email: ritscher@uniti.de).

With kind regards

Dipl.-Ing. Edwin Leber
