Web-Seminar

Automotive Fluids, Fuels, and Lubricants – March 23–24, 2026

In a nutshell: Due to the positive feedback regarding our lubricant webinars and numerous requests, we are happy to offer our web seminar "Automotive Fuels, Lubricants and Automotive Fluids" in English. The seminar will take place on March 23 and 24, 2026 (½ day each). Thus, also technical staff working outside Germany in your industry can benefit from the training easily and without travel expenses.

Dear ladies and gentlemen,

Herewith we would like to inform you about our web seminar "Automotive Fluids, Fuels and Lubricants", which we will offer in English **on March 23 and 24, 2026** (divided into two half day sessions).

This seminar covers fuels and lubricants as well as automotive fluids used in the automotive sector (coolants, brake fluids, etc.). It is therefore ideally suited for your technical employees who are active in the automotive sector or who would like to increase their expert knowledge in this area in a targeted and compact manner.

To help participants stay focused despite the extensive content, the training is divided into two half-day sessions. Participation is possible remotely—either from the workplace or from a home office. This format ensures the training is both time- and cost-efficient, eliminating the need for travel.

From fuels and e-fuels to engine oils, the most important functional fluids (coolants, brake fluids, etc.) and the special lubricant requirements for two-wheel and off-highway vehicles, this field is covered in a compact manner. The target group therefore includes sales people as well as laboratory and technical staff from mineral oil companies and also from the automotive and supply industry.

The technical presentations will be delivered by Dipl.-Ing. Edwin Leber, Dr. Norbert Thrans, and Dr. Maren Ohnesorge. All three speakers bring extensive expertise and many years of experience in the field of automotive fuels and lubricants.

Take advantage of this offer for qualified further training of your employees.

The web seminar “Automotive Fluids, Fuels, and Lubricants” will take place on March 23–24, 2026, following the schedule below:

Day 1: Monday, 23 March 2026

12.30 – 12.45	Welcome & Introduction
12.45 – 14.00	Fuels, incl. alternative and e-Fuels
14.00 – 14.15	Break
14.15 – 15.30	Overview Lubrication, Base Oils and Additives
15.30 – 15.45	Break
15.45 – 17.00	Engine Oils

Day 2: Tuesday, 24 March 2026

9.00 – 10.30	Automotive Fluids (Coolant, brake fluid, windshield cleaner, AdBlue)
10.30 – 10.45	Break
10.45 - 12.15	Lubricants for motorbikes and small engines
12.15 – 13.00	Break
13.00 – 14.30	Lubricants for large engines (Forestry, Off-Highway, etc.)

Participants are welcome to ask their questions during the presentations via chat or verbally, which will be gladly answered by the speaker.

The seminar presentations will be sent to the registered persons or their companies before the seminar.

Thus, participants can make written notes in the documents during the web seminar.

The seminar will only be held if there is a minimum number of participants. In order to be able to address specific participant questions, the number of participants is limited. Once the minimum number of participants has been reached, you will receive a confirmation of your registration from us.

We therefore recommend a quick registration if you are interested!

Participation fee including online access and conference documents (will be provided in due time):

UNITI-member	€ 445, - + 19% VAT.
Non-member	€ 545, - + 19% VAT.

Registration (see registration fax attached, please send directly to UNITI):

Registration deadline: **March 06, 2026**
Cancellation deadline: **March 06, 2026**

We will send the dial-in details for the web seminar to all registered participants in advance. After successfully completing the seminar, each participant will receive a certificate of attendance.

If you have any questions, please feel free to contact Mrs. Madeleine Ritscher at Tel.: +49 30 755 414-500 or by e-mail at ritscher@uniti.de.

With kind regards

Dipl.-Ing. Edwin Leber
Managing Director
Lubricants and Mineral Oil Technology

Dr. Maren Ohnesorge
Head of Regulatory Affairs (Chemicals)
