## **Web-Seminar „Lubricating Greases“ on 6 – 7 February 2023**

**In a nutshell:** Due to the positive feedback and persistent demand on our English webinars, we will now offer another new webinar regarding "Lubricating Greases" in English.

It will take place on February 6 and 7, 2023, each half-day. In this compact Web-Seminar, the most important aspects of lubrication greases will be covered in a compact and targeted manner. This seminar is designed for both newcomers and experts.

With this offer your personnel working outside Germany e.g. in your branches, sales companies, etc. can benefit from the training easily and without traveling.

Dear Ladies and Gentlemen,

We would like to inform you about our new web seminar "Lubricating **Greases**", now also in English, which we will offer on **February 6 and 7, 2023** (half-day each) in the proven online format.

In this compact web seminar, the most important aspects of lubricating greases are conveyed in a targeted manner. After the introduction with an overview of the basics of tribology and grease lubrication as well as the raw materials for lubricating greases, the properties, manufacture and application of lubricating greases are explained in detail. The webinar is rounded **down off** with information on inspecting and testing lubricating greases, so that participants receive valuable tips for quality assessment and interpreting data sheets.

In addition, participants are welcome to contribute their practical questions at any time.

In order to maintain the concentration of the participants despite the **large** amount of information, the seminar is divided into 2 half days. Participation can take place from the workplace as well as from the home office. Thus, this training can be carried out effectively in terms of time and cost without travel expenses.

**The speaker at the seminar is Dr Bernd Lindstaedt, who has a recognized high-level of expertise in the field of lubricating greases and extensive practical experience over many years.**

Use this offer for a qualified further education of your employees!

**Schedule and contents of the web seminar "Lubricating Greases":**

**Tuesday, 6 February 2023**

- 13.00 – 13.15 Welcome, introduction, organizational matters
- 13.15 – 14.45 Basics of tribology and grease lubrication
- 14.45 – 15.00 Break
- 15.00 – 16.30 Raw materials for greases

**Wednesday, 7 February 2023**

- 9.00 – 10.30 Production and properties of lubricating greases
- 10.30 – 11.00 Break
- 11.00 – 12.30 Applications of lubricating greases and bonded coatings incl. biolubricants and food-grade lubricants
- 12.30 - 13.30 Break
- 13.30 – 15.00 Inspecting and testing greases

Participants are welcome to ask their questions via chat or verbally during the presentations, which the speaker will be happy to answer. In addition, there will be sufficient time at the end of the seminar for participants to ask practical questions.

The seminar presentations are sent to the registered persons or their companies as colour printouts in a folder in due time before the seminar. Thus, the participants can make written notes in the documents during the web seminar.

The seminar will only be held if there is a minimum number of participants. The number of participants is limited in order to be able to respond to specific questions from participants.

**We therefore recommend a quick registration if you are interested!**

**Participation fee including online access and conference documents (will be sent by mail in due time):**

UNITI-/VSI-Mitglieder	€ 395,-- + 19% VAT
Nichtmitglieder	€ 495,-- + 19% VAT

**Registration** (see Registration form attached):

Registration deadline: 27 January 2023  
Last cancellation: 27 January 2023

We will send the program of the seminar and the dial-in data for the online seminar to the registered persons in due time before the seminar.

The participants will receive a certificate of participation after the seminar.

If you have any questions, please do not hesitate to contact Mr. René Löser at Tel.: +49 30 755 414-400 or by e-mail at [loeser@uniti.de](mailto:loeser@uniti.de).

best regards

Dipl.-Ing. Edwin Leber  
Managing Director  
Lubricants / Mineral oil technologies
