

Web-Seminar:

“Asia-Pacific Chemical Compliance and Global Sustainability Management”

In a nutshell: In response to numerous member requests, we are offering a web seminar in cooperation with the companies UMCO and REACH24H on the current regulatory situation in Asia-Pacific countries (APAC). These countries are a large potential market for various companies. That is why it is important to be familiar with the different legal requirements of the respective countries.

Dear Sir or Madam,

We would like to draw your attention to another web seminar, which is being organised in cooperation with the companies UMCO and REACH24H. The seminar will deal with the current regulatory situation in Asia-Pacific countries (APAC).

These countries are a large potential market for various companies. It is therefore important to be familiar with the different legal requirements of the respective countries. In our online seminar, the current developments in the countries China mainland, Taiwan region, Korea, India will be presented before also taking a look at the development of the topic of sustainability in a global context.

Seminar Description:

In recent years, more and more companies have been turning their attention to the chemical regulations in the Asia-Pacific region, particularly in China, the Korean region, India and Taiwan, which are similar to the EU's REACH regulation.

In this two-morning online seminar, experts from UMCO GmbH in Hamburg, Germany, and the REACH24H Consulting Group in Hangzhou, China, will present the latest regulatory developments and practical requirements. You will learn valuable tips for dealing with the existing rules and regulations by way of specific case studies.

Reasons to Attend:

- You will gain a concise insight into the GHS and REACH regulations in Asian-Pacific countries.
- Theoretical principles will be explained using case studies and you will receive valuable practical tips.
- You can ask the experts your specific questions directly.

If you are interested, we recommend registering as soon as possible. The number of participants is limited.

Programme:

Day 1 (June 16, 2025):

- Progress of China Chemical Management Regulation Development - Recent Update
- Hazardous Chemicals Import/Export Control and Registration Enforcement in China
- Introduction to Taiwan Chemical Registration Requirements - After the PEC Deadline
- Environmental Information Disclosure and Corporate Responses in the Context of Global Sustainability
- Q&As after each section

Day 2 (Juni 17, 2025):

- K-REACH Update in 2025 - Introduction and Interpretation
- Introduction to Chemical Management System in India
- Chemical Management Status in ASEAN Countries - Registration and GHS Implementation
- Q&As after each section

Target Group:

- Manufacturers
- Trading companies
- Product managers
- Quality managers
- Employees from research and development

Date:

- Monday, 16 June 2025 9:00 a.m. to 1:00 p.m. (UTC+01:00)
- Tuesday, 17 June 2025 9:00 a.m. to 1:00 p.m. (UTC+01:00)

Participation fee including seminar documents:

UNITI-/VSI-Members € 660 + 19% VAT

Non-members € 695 + 19% VAT

(Registration directly with the UMCO Academy)

Please note that UNITI-/VSI-members must register using the registration form attached to this circular. If you register directly through the UMCO Academy website, you will be required to pay the full attendance fee listed there.

Language:

The online seminar will be held in **English**.

Package and certificate

- Seminar documents
- Certificate of attendance

Additional Information

- The online seminar will be held via Microsoft Teams.
- To participate, you need a PC, tablet or smartphone with an internet connection. You can join via the browser or the app.

Speakers:

We would like to take this opportunity to introduce our potential speakers for this seminar. They work with members and customers every day, in their capacity as experts, consultants and trainers.

Willi Weßelowsky (dangerous goods, UMCO GmbH)

Willi Weßelowsky's trump card is his long experience in (port) logistics, warehousing and the chemical industry, which makes him the ideal person to communicate complex technical knowledge in a practical way. As a senior expert, he also has extensive knowledge of dangerous goods management and plant safety.

Lacey Liu (Regulatory Consultant, REACH24H Consulting Group)

Ms. Lacey Liu is a consultant from AP Chemical Registration Department, responsible for chemical registration in Chinese Mainland, China's Taiwan, Japan and the other Asia Pacific countries and regions. Considering the real interests of enterprises, she is committed to provide the most cost-effective solutions with her extensive regulatory knowledge.

Sabrina Wang (Senior Regulatory Consultant, REACH24H Consulting Group)

Ms. Sabrina Wang has been deeply involved in the compliance industry for many years and has extensive experience in global chemical regulations. She is good at global GHS regulation tracking, SDS and GHS labeling regulation tracking, hazardous chemicals and dangerous goods management consulting, and understands China's product import and export access and EHS regulatory management. She has helped many international companies complete several of China's import and export chemical compliance projects, providing professional customized solutions to help customers solve the problem of chemical market access.

Jackson Yu (Regulatory Consultant, REACH24H Consulting Group)

Mr. Jackson Yu has extensive experience in global chemical regulations. He is good at China New Chemical Substance Registration (MEE Order 12), Taiwan Chemical Registration (TCCSCA), K-REACH in South Korea, Japan CSCL and ISHL, Australia AICIS, Phillipines RA.6969, etc. He has helped several international companies to complete difficult chemical compliance projects. Besides, he's also familiar with compliance in various fields such as cosmetics, food contact materials, pharmaceuticals, etc., assisting companies in overcoming global trade barrier.

Freya Huang (Regulatory Affairs Consultant, REACH24H Consulting Group)

Freya Huang holds a master's degree in Pollution and Environmental Control from the University of Manchester, UK. With extensive experience in corporate sustainability disclosure, she has contributed to sustainability reporting projects for nearly twenty A-share listed companies in China. Freya has developed a deep expertise in the GRI Standards and has accumulated significant practical experience with sustainability disclosure platforms such as CDP and EcoVadis. Committed to researching and interpreting sustainability policies and trends, she has conducted in-depth studies on emerging disclosure standards and carbon related policies, including the EU CSRD and CBAM.

Seongmin (Mike) Sohn (General Manager & Principal Consultant, REACH24H KOREA CO., LTD.)

Mr. Seongmin (Mike) Sohn is the GM of REACH24H Korea and Principal Consultant in chemicals, cosmetics, food regulatory compliance and market research on a global scale. His academic background is Biotechnology and Public Health with more than 12 years of experience in Cosmetics, Biotechnology and Pharmaceuticals industry. He is acknowledged as an industry expert in government affairs which has widely been invited to advisory groups and committees from MoH, MFDS, MoE, MoTIE, other local governments and institutions in Korea. He has been invited as keynote speakers more than 100 times in Korea and abroad, including Chemcon series, in-cosmetics series (Global, Asia, Korea), Bravo Forum, CRAC serious, CHEM Korea, Cosmoprof ASIA, Intercham Korea, CI KOREA, and Bio Korea and many more. He wrote 2018 and 2019 Korean Wave White Papers as co-author for consecutive years.

Aman Sharma (Global Regulatory Affairs Consultant, REACH24H INDIA)

Mr. Aman Sharma has completed their MS degree in Pharmacology & Toxicology domain from the National Institute of Pharmaceutical Education and Research (NIPER), Kolkata, which is regulated by the Ministry of Chemical & Fertilizers, Govt. of India. He completed a research project from the Translational Health Sciences and Technology Institute (THSTI) on Non-Alcoholic Fatty Liver Disease. He spent almost one year in the Regional Centre for Biotechnology, UNESCO, especially in the field of Stem cell Biology & Toxicity studies. After that he joined REACHLaw Ltd. as a Senior Officer-Regulatory Affairs in India, to start a career in REACH-like regulations such as EU-REACH, K-REACH, India REACH (ICMSR), BIS regulation (FMCS), Indian waste management regulations, battery waste management regulation, cosmetic registration services in India as per Cosmetic Rules, 2020. Then he joined as Sr. Research Associate in IDS Infotech Ltd. to prepare regulatory research reports in the chemical, petrochemical, and cosmetic sectors at a global platform. Now he started working in REACH24H as a Global Regulatory Affairs Consultant, to launch the BIS FMCS, BIS CRS, and India REACH services on behalf of REACH24H.

Nadine He (Editor-in-Chief, ChemLinked)

With over 10 years of extensive experience in the chemical regulatory field, Ms. Nadine He serves as the Editor-in-Chief at ChemLinked, a leading regulatory intelligence platform. She specializes in tracking and interpreting domestic and international chemical control policies, with in-depth expertise in areas such as chemical registration, hazardous chemical safety management, and green chemicals. Leveraging her deep industry insights and comprehensive regulatory knowledge, she has provided customized regulatory reports and compliance advisory services to numerous multinational chemical companies.

If you have any organisational questions, please feel free to contact Madeleine Ritscher on tel.: +49 30 755 414-500 or by email at ritscher@uniti.de.

Kind regards

Dipl.-Ing. Edwin Leber,
Managing Director Lubricants/Mineral Oil Technology

Dr Maren Ohnesorge
Head of Regulatory Affairs (Chemicals)
