Web-Seminar

„Automotive Fluids, Fuels and Lubricants“ at 22 and 23 October 2024 in English

In a nutshell: Due to the positive feedback regarding our lubricant webinars and numerous requests, we are happy to offer our web seminar "Automotive Fuels, Lubricants and Automotive Fluids" in English. The seminar will take place on October 22 and 23, 2024 (½ day each). Thus, also technical staff working outside Germany in your industry can benefit from the training easily and without travel expenses.

Dear ladies and gentlemen,

Herewith we would like to inform you about our web seminar "Automotive Fluids, Fuels and Lubricants", which we will offer in English **on October 22 and 23, 2024** (divided into two sessions).

This seminar covers fuels and lubricants as well as automotive fluids used in the automotive sector (coolants, brake fluids, etc.). It is therefore ideally suited for your technical employees who are active in the automotive sector or who would like to increase their expert knowledge in this area in a targeted and compact manner.

In order to maintain the participants' concentration despite the large amount of information, the content is divided into 2 half days. Participation can take place from workplace as well as from home office. Thus, this training can be carried out effectively in terms of time and cost without travel expenses.

From fuels and e-fuels to engine oils, the most important functional fluids (coolants, brake fluids, etc.) and the special lubricant requirements for two-wheel and off-highway vehicles, this field is covered in a compact manner. The target group therefore includes sales people as well as laboratory and technical staff from mineral oil companies and also from the automotive and supply industry.

The technical presentations will be given by Dipl.-Ing. Edwin Leber, Dr. Norbert Thrans and Dr. Maren Ohnesorge. All three speakers have a broad knowledge and extensive experience in the field of automotive fuels and lubricants.

Take advantage of this offer for qualified further training of your employees.

The web seminar "Automotive-Fluids, Fuels and Lubricants" will be held from 22 to 23 October 2024 with the following schedule:

Day 1: Tuesday, 22 October 2024

12.30 – 12.45	Welcome & Introduction
12.45 – 14.00	Fuels, incl. alternative and e-Fuels
14.00 – 14.15	Break
14.15 – 15.30	Overview Lubrication, Base Oils and Additives
15.30 – 15.45	Break
15.45 – 17.00	Automotive Fluids (Coolant, brake fluid, windshield cleaner, AdBlue)

Day 2: Wednesday, 23 October 2024

9.00 – 10.30	Engine Oils
10.30 – 10.45	Break
10.45 - 12.15	Lubricants for motorbikes and small engines
12.15 – 13.00	Break
13.00 – 14.30	Lubricants for large engines (Forestry, Off-Highway, etc.)

Participants are welcome to ask their questions during the presentations via chat or verbally, which will be gladly answered by the speaker.

The seminar presentations will be sent to the registered persons or their companies before the seminar.

Thus, participants can make written notes in the documents during the web seminar.

The seminar will only be held if there is a minimum number of participants. In order to be able to address specific participant questions, the number of participants is limited. **We therefore recommend a quick registration if you are interested!**

Participation fee including online access and conference documents (will be provided in due time):

UNITI/VSI-member	€ 445, - + 19% VAT.
Non-member	€ 545, - + 19% VAT.

Registration (see registration fax attached, please send directly to UNITI):

Registration deadline: October 08, 2024
Cancellation deadline: October 08, 2024

We will send the program of the seminar with breaks and the dial-in data for the web seminar to the registered persons in time before the seminar.

After your registration you will receive our confirmation of participation.

If you have any questions, please feel free to contact Mrs. Madeleine Ritscher at Tel.: +49 30 755 414-500 or by e-mail at ritscher@uniti.de.

With kind regards

Dipl.-Ing. Edwin Leber
Managing Director Lubricants and Mineral Oil Technology
