### Web-Seminar "Industrial lubricants" at 20 and 21 September 2022

**In a nutshell:** For the first time, we are offering our well-established "Industrial Lubricants" Web-Seminar seminar in English. It will take place on 20 and 21 September 2022, each half day. In this compact Web-Seminar, the most important aspects of industrial lubricants will be covered over two half days. This seminar is designed for both newcomers and experts. The speakers will be Prof. Dr. Joachim Schulz and Dr. Bernd Lindstaedt, who are valued in the industry.

Dear Ladies and Gentlemen,

Industrial Lubricants as a whole play a relevant role in the lubricant industry. Therefore, we will offer a Web-Seminar on 20 and 21 September 2022 (half-day each).

In this compact web seminar, the most important aspects of industrial lubricants are covered. After an introduction including an overview of lubricant technology, base oils and additives the most important types of industrial lubricants and their requirements are presented.

At the end of the Web-Seminar the attendees will get practical tips and valuable advices around the applications, inspections and analytics.

The Seminar is divided into two half days in order to maintain the participants' concentration despite the large amount of information. Participation can take place both from the workplace and from the home office. This means that training can be delivered effectively and cost-efficiently without the need for travel.

In the seminar, participants will receive a compact overview of the most important aspects of industrial lubricants and valuable information for their everyday work. In addition, all participants are invited to bring in their practical questions.

The speakers at the seminar are Prof. Dr Joachim Schulz and Dr Bernd Lindstaedt, who have many years of experience in the lubricant industry.

**Take advantage of this offer for the qualification or further training of your employees!**

***Schedule and contents of the webinar "Industrial Lubricants":***

**Tuesday, 20 September 2022 (afternoon - CET)**

12.30 - 12.45	Welcome, introduction, organisation
12.45 - 14.00	Overview of lubricants, tribological basics, base oils and additives
14.00 - 14.15	Break
14.15 - 15.30	Greases and special lubricants
15.30 - 15.45	Break
15.45 - 17.00	Hydraulic fluids

**Wednesday, 21 September 2022 (morning - CET)**

9.00 - 10.15	Industrial gear, turbine and compressor oils
10.15 - 10.30	Break
10.30 - 11.45	Bio-lubricants and eco-labels, food-grade lubricants
11.45 - 12.00	Break
12.00 - 13.00	Handling industrial lubricants, analysing and testing

Participants are welcome to ask their questions during the presentations (via chat or via live connection). Both speakers will be happy to answer them. Additionally, there will be enough time at the end of each seminar day to discuss open tasks.

The seminar presentations will be sent to the registered persons or the in advance given address (coloured printouts) a few days before the seminar starts. This allows all participants to take notes during the seminar.

The seminar will only be from a minimum number of participants. The number of participants is also limited in order to be able to respond to specific questions and to have useful discussions.

**We therefore recommend early registration if you are interested!**

**Participation fee** including online access and conference documents:

UNITI/VSI members	€ 395,-- + 19% VAT
Non-members	€ 495,-- + 19% VAT

**Registration** (see registration form attached, please send directly to UNITI):

Registration deadline: **August 30, 2022**

Cancellation deadline: **August 30, 2022**

We will send the seminar program and the dial-in data for the Web-Seminar to the attendees a few days before the seminar starts.

Participants will receive a certificate of attendance after the seminar.

If you have any further questions or comments, please feel free to contact Mr. Joel Haupt (by phone: +49 30 755 414-500 or by email: [haupt@uniti.de](mailto:haupt@uniti.de)).

With kind regards

Dipl.-Ing. Edwin Leber
