

## Training course „Certified Professional for Lubricant Technology“ in English language in February/March and June 2018

Both German associations UNITI and VSI have jointly established a two weeks training course “Certified Professional for Lubricant Technology” in German language in 2013, consisting of 3 seminar days in the 1<sup>st</sup> and 4 seminar days in the 2<sup>nd</sup> training week including an additional final examination.

Since January 2013 numerous training courses have already been conducted in Germany and Switzerland and more than 350 professionals qualified for the certificate to demonstrate their acquired lubricants knowledge.

Due to the high demand we carried out a new training course „Certified Professional for Lubricant Technology (CPL)“ in English language in 2016 and again in 2017, which is repeated in February/March and June 2018. The CPL training course is based on the very successful German training course and consists of the following modules and contents:

- Module 1: Crude Oil and Base Oil
- Module 2: Tribology and Additives for Lubricants
- Module 3: Metalworking Fluids
- Module 4: Automotive Lubricants
- Module 5: Industrial Lubricants
- Module 6: Lubricating Greases / Health, Safety and Environment
- Module 7: Repetition / Final examination

The training course “Certified Professional for Lubricant Technology” is aimed at professionals in the lubricant and additive business who are interested in acquiring solid expertise on lubricants.

The seminar provides specialist knowledge on the function and properties of modern lubricants as well as their various applications. The course will be held in English and seminar documents will be available in English as well (translation of the German training material).

Participants who passed the training and final exam for the qualification as “Certified Professional for Lubricant Technology (CPL)” are authorized to use the corresponding logo, for example on their business cards, e-mails and any correspondence. Employers of people qualified as Certified Professional for Lubricant Technology are authorized to point out the acquired additional qualification of their employees.

Further detailed information regarding the CPL training courses, the rules and conditions to obtain the certificate as well as on the speakers/trainers can be found in the attached flyer “CPL Information (October 2015)”.

The UNITI/VSI training course “Certified Professional for Lubricant Technology (CPL)“ is organized and conducted by UNITI-Mineralöltechnologie GmbH in Berlin.

June 2017

**Date of 1<sup>st</sup> training week: 27 February – 1 March 2018**

**Date of 2<sup>nd</sup> training week: 5 - 8 June 2018**

**Venue: UNITI-Haus, Jägerstraße 6, 10117 Berlin**

**Schedule/Programme of the first training week:**

Tuesday, 27 February 2018

09.00 - 16.30 Module 1: Crude Oil and Base Oil

Wednesday, 28 February 2018

09.00 - 17.00 Module 2: Tribology and Additives for Lubricants

Thursday, 01 March 2018

09.00 - 16.00 Module 3: Metalworking Fluids

**Schedule/Programme of the second training week:**

Tuesday, 05 June 2018

09.00 - 16.30 Module 4: Automotive Lubricants

Wednesday, 06 June 2017

9.00 - 17.00 Module 5: Industrial Lubricants

Thursday, 07 June 2017

9.00 - 17.00 Module 6: Lubricating Greases / Health, Safety and Environment

Friday, 08 June 2017

9.00 - 13.00 Module 7: Repetition / Final examination
